Fine coffees are more than a tradition at Southern Season. For over 25 years, coffee has been a vital part of Southern Season's commitment to quality and variety. Today we are proud to have become a Chapel Hill landmark, known locally and nationally for our selection of over 100 different coffees from around the world.

Choose the Coffee That's Right For You

CENTRAL / SOUTH AMERICA

Coffees from the Americas are noted for their bright, lively acidity and balanced, clean taste. Notes of nuttiness, chocolate, and spice are common traits.

AFRICA

Deep, full body and rich acidity make African coffees some of the most complex in the world. Fruity, wine-like, and floral are words used to describe the wide variety of taste.

PACIFIC RIM

Most of the world's least acidic, full-bodied coffees come from this area. Earthy, syrupy, and sweet all equal a smooth cup.

BLENDS

The very best blends combine elements from two or even all three of the primary growing regions. Blends are comprised of different coffees in order to create more complexity. All blends are designed to promote a specific flavor or taste.

SEASONALITY & AVAILABILITY

Coffees are harvested throughout the year and exhibit peak periods of flavor. It's our goal to provide you with the best quality coffee during these peak seasons, so please check for availability. Savor your favorite brew at its peak.

Gift Samplers

Exceptionally good coffees laid the cornerstone to Southern Season's reputation when we first opened our shop in 1975. Share our rich heritage with a gift sampler of our pride and joy.
